

Name : Keanu Kunendra
Address : Baloi View Blok E1 No. 10, Batam-Indonesia
Email : keanu_kunendra@yahoo.com
Phone : +6281372022195

Sex: Male| Nationality: Indonesian| Date of Birth: 22 October 1995

- Krama Website(FrontEnd)

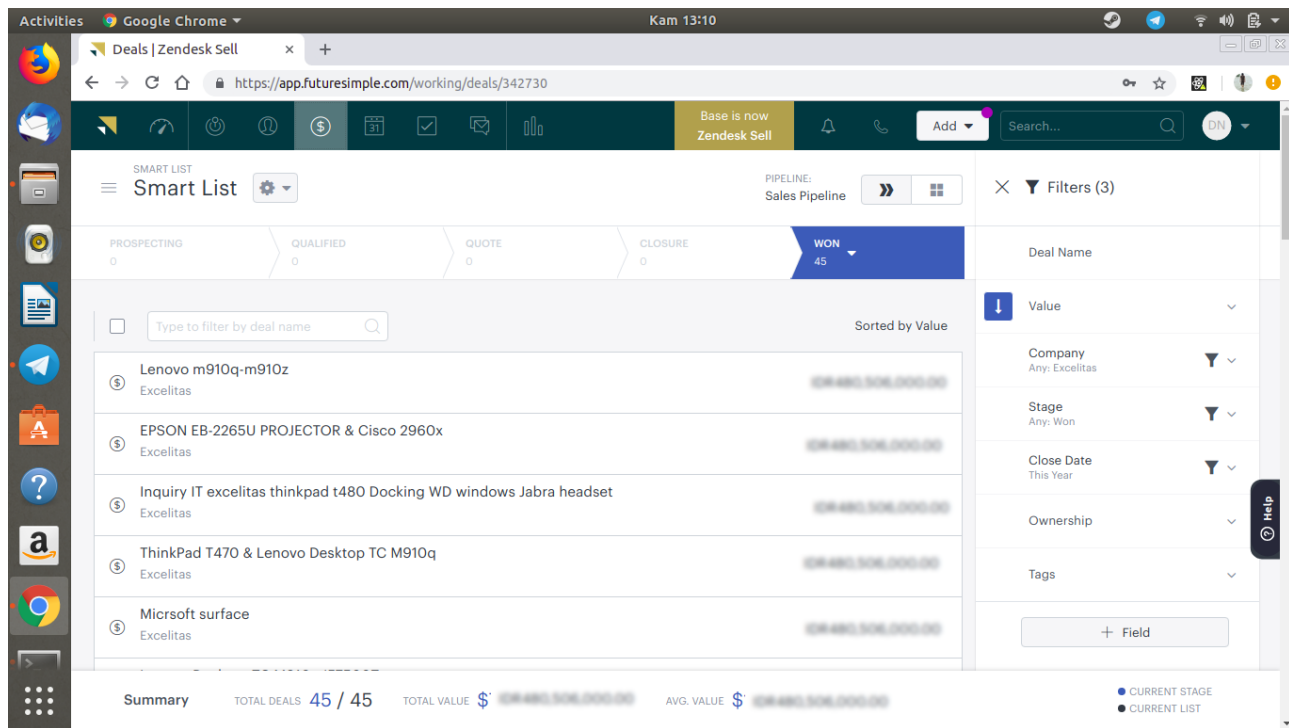

In Krama Project from Glints Academy, I have created a " about us " page, where this page explains the needs of Krama, 3 icons about Krama, and a profile of the team. Besides, I have made the live chat feature so that users can ask directly to the admin for more details. And this page has also been made responsive so that it can be accessed from any device

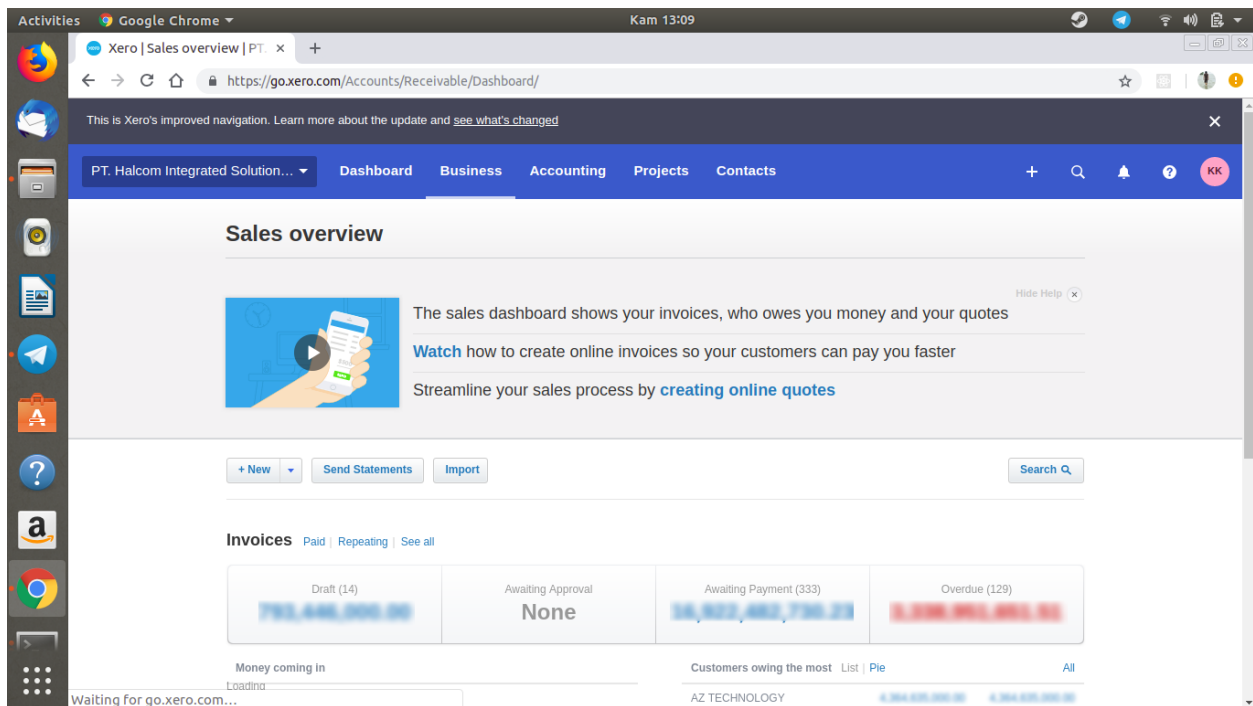

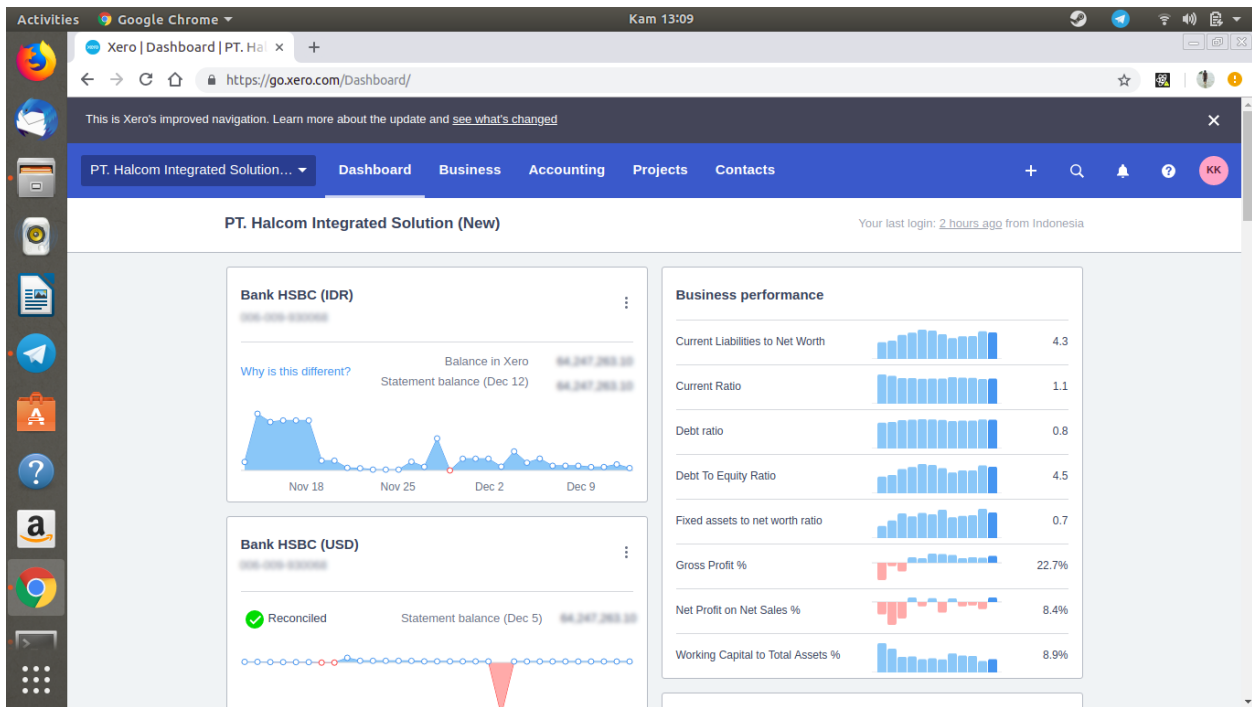

- Base CRM(System Analyst)

I once analyzed a cloud system called Base CRM. This system is useful for knowing sales reports every month even every year. Then it can be concluded whether the sale is a loss or profit.

- Xero(System Analyst)

This system is called xero, this system is very complete because it can analyze accountants and finance reports, sales reports, purchasing reports, all department reports related to each other on this system. Besides, the report results can be exported in excel and pdf
